## REMARKS

The figures of births and deaths shown in this statement for week ending the 30th November, 1957 relate to 139 towns with an estimated population of 18,617 thousands. Information about Andhra Pradesh, Assam, Bombay, Madhya Pradesh, Orissa and West Bengal could not be included. The total number of towns is 319 and their population is 42,930 thousands. Thus 44% of the total number of towns representing 43% of the total population is covered

in this statement. The number of births and deaths recorded in these towns were 12,942 and 4,921 representing birth and death rates of 36.1 and 13.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—

States	Current w/c 30-11-1957		Corresponding w/c last year
